

PIFE Presents

First Letters

An IFFD Course For parents of children 4—7 years old

FIRST LETTERS is a course developed by professionals at IFFD (International Federation for Family Development, www.ifd.org) that uses the **Harvard case study method** to explore parenting issues. It is meant to give confidence and practical assistance to parents, who are the first educators of their children.

Children in the range of 4-7 years old start to develop their personality and reach the age of reason at 7. This stage requires the parents' individual attention on each child so as to know the child better, develop a well formed mind, a resolute will, good operative habits called virtues thereby enhancing child's character, personality and temperament.

**Join us for a fabulous course
and an opportunity to network with other parents!**
